This is unconstitutional unhealthy for the environment and detrimental to the future of humanity Sustainability is not a privelesge it's a basic human right like breathing and consuming water I appose this with every ounce of my being I have owned my home for 25 yrs I'm not about to tell you when I ammend the soil how can it be possible to be able to use pesticides and herbicides freely but not organic matter in the garden?

NoNoNo you will not regate every single chicken on every single plot of land in the country NONONO!! We are not prisoners nor are we slaves nor are you our rulers NONONO
