

Leilani Macmillan

The County officials typically do NOT live in Rural Thurston County. They have NO experience in the area they try to Legislate. They do not qualify, nor should they be allowed to Legislate, nor put under Law any Rural living experiences.

Rural Residents have their Constitutional Rights to make their own choices and decisions as how to live and operate on Rural land.

When the Stewardship Committee/Dept. first began, I asked the panel if any of them lived in RURAL THURSTON COUNTY. Not one of them did. They were embarrassed.

The point is.... ONLY RURAL FOLKS are qualified to make decisions for us with our Consent. NOT an urban-dwelling government corporate entity!
