

Alic Swidecki

Dear Jeff, I am not sure if I am supposed to send this concern to you or a person named Chelsea Morris, but I could not find her Email address posted, so I am hoping that you can pass our concern along to the correct person or people.

We oppose the CAFO rules as drafted and concur with the comments of the Benton, Grant, Okanogan, Thurston, and Yakima County Farm Bureaus. As a small farm owner, both my wife and I are very concerned over the passing of any type of Legislation that adversely impacts our current farm. We all need to work with those who raise livestock on a small scale providing locally sourced food. Applying CAFO standards to small operations will be devastating to local food production and our overall food security. Ecology must recognize the work of the Voluntary Stewardship Program and local conservation districts. Instead of regulating, Ecology needs to encourage participation in these voluntary programs, proven to protect water quality. Thank you Sincerely,
Robert J. & Alice M. Swideck

Chelsea,

Somehow I missed this email while gone on vacation. I'm forwarding on to you for what it's worth.

Jeff
