

Homeless Ness

I just want to know why it is legal for all the homeless camps to set up on river banks, lake banks over sewer and storm drains etc, they litter they defecate the do drugs and it is allowed! They literally do not have to comply with all the bureaucratic red tape that you require businesses or home owners to do, why is that? Is that because tax payers have the ability to pay? If so is that not discrimination between the have's and have nots? YOUR POLICIES do not level the playing and to me it is a complete disgrace to humanity for you to you continue to allow this to happen everyday and turn a blind eye to it!
