What is your HQ section or Region?  
NWRO

What question(s) do you have for the WQ town hall?

1. Is it likely that current employee responsibilities may change with the organizational changes? (The work we are assigned today will be different/changed within the year, not just the workload volume?).
2. Is there any plan to have coordinated training for similar new positions added? We are adding a whole lot of permit writer/manager positions, how can we encourage consistent training across the state and have a focus on the different types of permits we write?

I also have some more specific work responsibility questions and how it works region to region. I will plan to ask this during the open office hours.

Thank you!
