

Leslie Taylor

As an outdoor enthusiast, I support Soap Lake's Tier III(B) Outstanding Resource Water designation.

This lake is like no other I have encountered. All aspects - entering from the shore, standing or floating in the shallows, 'mudding up', paddling alongside the high cliffs, encountering birds above or tufa columns below.

I moved to the city of Soap Lake to be near the lake.

I celebrate the lake.

I am glad that you have joined us in making the preservation of this place a priority.
