

Kyoko Hummel

My several visits to Soap Lake have been very enjoyable especially enjoying being in the Lake water. Soap Lake has unique, mineral-rich water created by the geology of the region concentrating the minerals in the water and the mud., This is a regionally unique recreational value and destination for healing nature of water. Used since pre-historic times to heal and rejuvenate people living here. My husband and I hope to see Soap Lake is designated as an Outstanding Resource Water since it is such a unique Lake.
