Question addendums w/comments :

Re : Question 7

What specific activities would be exempt from environmental review or existing regulations that could potentially impact the water quality

[plz also add : and it's use accessibility to private/public services purposes including, yet not exclusive to, natural /or manmade disasters]

Re : Question 8

Can a natural disaster affect how the DOE will interpret the antidegradation policy

[plz also add : affecting its use, purpose accessibility]?

These question addendums come from remembering WA's attempt to charge, limit /or ban its tax paying citizens for simply collecting rain water. Also, in response to growing concerns for other state's battles over Water Rights ♦ thinking of CA Maui currently ...

"In the beginning God created the heavens and the earth. The earth was formless and empty, and darkness covered the deep waters. And the Spirit of God was hovering over the surface of the waters."

--Genesis, -1,;-1,--2, -NLT,,

"Then God said, "Let the waters beneath the sky flow together into one place, so dry ground may appear." And that is what happened. God called the dry ground "land" and the waters "seas." And God saw that it was good."

--Genesis, -1,;-9,--10, -NLT,,

"Then God blessed them and said, "Be fruitful and multiply. Fill the earth and govern it. Reign over the fish in the sea, the birds in the sky, and all the animals that scurry along the ground.""

--Genesis, -1,;-28, -NLT,,

Thank you all for the work you put forth in optimizing the purpose of God's beautiful surroundings resources here in WA.
