

Nancy Zahn

I have lived in Toutle Washington for 30 years, and have spent a lot of time at the Green River. I raised my children here, and we have often gone to the Green River for swimming, picnicking, and hiking. We have seen salmon in the river, and have enjoyed the presence of one of the few remaining stands of old growth in the area. The importance of this river and its clear waters to both the salmon and the people who depend on it for water or recreation can't be over emphasized.

Please protect the Green River and designate it as an outstanding resource water.
