

## Mary Sinker

This comment is in support of designation for the upper Cascade River as an Outstanding Resource Water. The part of the Cascade which is being proposed for this designation is entirely within North Cascades National Park and the Mount Baker-Snoqualmie National Forest. This has no impact on private lands and does not remove any lands from timber harvest. This proposed designation simply requires that the pristine water quality of the designated portion of the upper Cascade River be protected.

Sincerely,  
Mary Sinker
