

Suellen Atkinson

I am in full support of the action to be taken regarding the preservation of Soap Lake. I support that DOE in their approval of Soap Laker as an outstanding resource water tier 111 and the stopping of pollution as well as any further degradation.

Soap Lake is so unique in the world as well as the United States as a mineral lake. The natural beauty of our somewhat fragile countryside provides us with opportunities to view and partake in activities that will not last forever.

I also commend those individuals who have put forth their valuable time and energy into a very complex and daunting task. Let's do all we can to protect and preserve nature's beautiful habitat.
