

David Van Cleve

Department of Ecology has lost two lawsuits over this CAFO permit. Please get it right this time and obey the law. Please look at the judgements and lawsuits and make sure you correct the issue for the judgements and lawsuits. If you have a choice choose to maximize the protect of the environment.

All CAFO's shall monitor the groundwater. All CAFO's shall spread the manure at agronomic rates and shall test soils so that they are not over loaded with nitrogen. All CAFO's shall have plans for smell reduction and insect control.
