

Kalama Manufacturing and Marine Export Facility Second Supplemental EIS

My husband and I live in Kalama and are against the proposed Methanol Refinery This would be a out of control use of our resources. The pollution left behind would be enormous. The select few that would get rich ,from this never before built design is a pipe dream. Our own governor Jay Inslee has come out against this project. Please this has gone on way to long,put an end to this proposed Kalama Methanol . Refinery. Teresa Flynn Kalama, Wa.

Thank you
Teresa Flynn
