

## Chris Covert-Bowlds

As a family doctor and father, I know our health must be protected. The more I learn about this project, the more it becomes clear that it is not worth the health risks. It seems much more based on making money at the expense of health risks. Profits over people, once again. With the climate crisis becoming ever more obvious, we must transition off fossil fuels as quickly as possible, and this project just supports fossil fuel use. Please put people over profits this time; stop this project.

Chris Covert-Bowlds, MD

Family doctor

Kaiser Permanente of Washington

9800 4th Avenue NE

Seattle, WA 98115
