

Gretchen Armstrong

This is Gretchen Armstrong and I have lived in Kalama for 28 years. I am so against this proposed gas to methanol refinery. Washington State should be pursuing industries with low greenhouse gas to gas pollution, and this is not one of them. China's possible use of methanol for fuel, as well as for plastic should give it all pause for the sake of-- Well, anyway, because of the climate and for climate itself, stop this all ill-advised project. Thank you.
