Dear Mr. Doenges,
Dept. of Ecology

Governor Inslee says, "It is time to abandon the disastrous course that now envelops us in smoke and ash" Deliberate and decisive action must be taken to slow climate change.

NW methanol refinery at Kalama would spew 4.6 million tons of greenhouse gas into the air every year for forty years. Please deny permits for this atrocity and protect, preserve and enhance the environment for current and future generations. Thank you. DeeraT Grossman
