

Cynthia Volk

We have lived in Kalama for 40 years and own a home and acreage on Cloverdale Road. I feel that building this plant in Kalama will be a huge negative impact on the sale price of our home that we have worked our entire lives for and will need in retirement. We do not need to sell and/or subsidize any plant in the United States not owned by our country. I do not believe that the Chinese are being truthful as to their intentions and statements made to their investors are proof of this. Our port has done a wonderful job in Kalama and we can be very proud of the efforts that they have made, but this is not their finest hour. I hope that these last few minutes have not been a waste of time and that you are seriously taking what I say into consideration.
