

Teresa Flynn

My husband and I live in Kalama and are against the proposed Methanol Refinery This would be a out of control use of our resources. The pollution left behind would be enormous. The select few that would get rich ,from this never before built design is a pipe dream.Our own governor Jay Inslee has come out against this project. Pleas this has gone on way to long put an end to this proposed Kalama Methanol . Refinery. Teresa Flynn Kalama, Wa.
