

Debra McGee

Washington should reject Northwest Innovation Works' (NWIW) proposal to build and operate the world's largest fracked gas-to-methanol refinery in Kalama.

The fires in Oregon and Wash.and the growing multiple devastating weather events are all "evidence" of what scientists are telling us.....we must STOP use of fossil fuels because they are heating up the atmosphere.

As a public school educator whose first job was in Yakima, I love the beauty of Wash. state. Climate change is destroying our home!

Please reject this project that will only take our species and all life closer to the edge of extinction. Time to change or die.

Please for the sake of my grandchildren and your own- reject this project.

Sincerely,
