Ms. Rich Doenges  
PO Box 47775  
Olympia Washington 98504-7775

Dear Ms Doenges,

I urge you to put a stop to the Kalama Manufacturing and Marine Export facility. This plant cannot be allowed to be constructed as it will increase the states greenhouse gas emissions by almost one million tons. This proposal does not take into account the adverse effects on water quality, fish and wildlife health. Nature is a finite resource that must be preserved, not destroyed. This will damage the delicate eco system of the Columbia river. The most alarming of all man's assaults on the environment is the contamination of air, earth, rivers and sea with dangerous and even lethal materials.

Sincerely Jane Yarrick  
JUNE YARRICK
