

Patrick Conn

It is ludicrous to think that any conclusion other than the IMMEDIATE and COMPLETE DENIAL OF THIS ECOLOGICALLY DISASTROUS POLITICALLY-BOUGHT CORPORATE BOONDOGGLE, oh, excuse me, PROJECT is possible given the results of this second supplementary environmental impact statement. This detailed report confirms and makes clear that the project is simply another delusional megalomaniacal attempt by stupefyingly greedy human beings to make money from Earth's natural resources WITHOUT REGARD FOR THE REGIONAL ECOLOGICAL, ENVIRONMENTAL, and now SOCIAL CONSEQUENCES; an environmental disastrous result of their sociopathic rape of America's natural resources.

This process is supposed to protect the public's interest, not private abusers' and American traitors' interests. Please do so.
