

# Lois Canright

Greetings! I am a young person who cares deeply about wildlife protection. Thank you for your work.

I respectfully ask you to end this proposed dam idea—one that could cost \$2 billion, harm salmon and steelhead runs, hurt our fishing economies, and siphon funding from bigger-picture solutions. We can do better.

Chehalis Basin residents need modern, proven flood solutions that protect people, the land, and salmon—not a massive, untested dam.

Instead, let's focus on real solutions that will improve fish runs and keep communities safe. Every ecosystem is precious and must be protected.

Thank you!
