

## Derik Meadows

WHY. Haven't yall done enough to mess with or natural fish runs and haven't you guys done enough to affect and hurt our outdoors?! Washington is an absolute joke when it comes to fish and wildlife but they don't care. What is this dam going to do for fish or our river? Is it gonna produce more natural fish and is it gonna help flooding? No it's gonna waste tax money of ours and even further damage our fisheries. Leave natural waters NATURAL and watch them produce NATURALLY. Yall have gotten your hands wet enough.
