Re: SEPA Revised Draft EIS for the Chehalis Flood Damage Reduction Project – Supplemental Comments from CELP Members and Supporters

Dear Mr. Talebi,

The Center for Environmental Law and Policy (CELP) appreciates this opportunity to provide comments from CELP members and supporters on the Revised SEPA Draft Environmental Impact Statement for the proposed Chehalis River Basin Flood Damage Reduction Project (the DEIS). These comments are in addition to our organizational Comments submitted earlier today.

CELP is a statewide 501(c)(3) nonprofit whose mission is to protect, preserve, and restore Washington's waters through education, advocacy, policy reform, and public interest litigation. Our programmatic focus areas include protecting instream flows, water availability including tribal water rights, clean water, healthy habitat, fish passage and climate resilience.

The Comments are attached to this submission via the Ecology Portal. please note some of our other members may submit comments directly via email and we incorporate those here by reference.

Thank you again for this opportunity to provide member and supporter comments.

Sincerely,

Chris Wilke
Executive Director
Center for Environmental Law and Policy
