

Bonnie Blessing

I live in headwaters of Beatty creek (WRIA 13) upstream of Northhill and here, it flows year round. Its curious how the stream dries out for a mile from around Chelsie lane down to confluence with McLane park. This is an important recreational and enviro education park where kiddos learn about salmon. Here are some notes from 5 November 2025 which are interesting. This stream shouldn't dry so fast I'd
