

Sharon Orvis

I have become so ashamed of this state. I am 69 years old and continue to work full-time because I have no choice. You are taxing me out of my retirement period. This state has a spending problem, not a revenue problem. They need to get ahold of themselves and put a halt to the spending. I cannot imagine what my children and grandchildren will have to go through, because this state cannot get their "sh*#" together. I truly wish I had the ability to move out of this state, I would do it in a minute!! Still something we are contemplating!

I don't understand why this state thinks it has to be on the precipice of cleaning up everything for everyone, until the entire world decides this planet is worth it, it doesn't do us any good to keep spending money on things that are not doing a bit of good

If someone could explain to me how my money is cleaning up this state, I would appreciate it.
