

Greg Trujillo

At every corner we are expected to absorb every single tax, no matter what it's called, as if we have unlimited resources. Why? The climate change hoax has been exposed for what it really is: decreed theft. Are you trying to run WA into the ground just like CA has been? Will you only be happy when everybody is living in homeless encampments? Where are you getting your money? I for one, must work hard for what I have and it seems there are those whose only purpose in life is to wrench OPM from everyone else. Stop this madness before WA is ruined. Climate 'whatever it's called this month', is a false narrative!!
