

# Paul Bryant

Dear Ms. Harris,

I STRONGLY support Ecology's proposed rules on ACT and HDOP. If anything I would like the rules tightened even more, NOT weakened. I am not interested in trucking industry efforts to delay or weaken or even repeal pollution rules. Health and the environment are more important than the financial benefit to any industry. Businesses can adapt, people can learn, but the environment has no choice to move or live in a different way. Unlike the business community, the health of citizens can't simply start operating by new rules. Let's stop pretending that money is more important than lives. The Advanced Clean Truck rule is critical for Washington to meet its climate targets in law and for improving our health.

Thank you for listening.
