

john nurius

Hello

I'm writing to support the updates to the Clean Truck Rules in the Department of Ecology's proposed rules on ACT and HDO. In these times of extreme environmental degradation, i believe our state's leadership in cleaning up trucking transportation has never been more important and i appreciate the work by the Department of Ecology to upholding the Advanced Clean Truck (ACT) and Heavy-Duty Low NOx Omnibus (HDO) rules.

Thank you for your kind consideration.

Cheers,

jmn
