This, like everything else Ferguson has done, and allowed, just adds to the reasons why he needs to be recalled. Democrats do NOT listen to the people they represent, and we are tired of this taxation without representation. NOBODY with any intelligence wants to be anything like California, but I have watched our state go down the toilet with these criminal dem acts for decades. I am sick of how they STEAL, like what I saw when working for the state, far too much criminality for me to stomach. I hope the next recall effort is successful and we are finally free of this career criminal, and all of these unwarranted taxed and other abuses they commit.
