

Jennifer Kinghorn

Dear Ms. Nikki Harris,

I commend the Department of Ecology for making sure we have more clean trucks on our roads in Washington by upholding the Advanced Clean Truck (ACT) program and the Heavy-Duty Omnibus Low NOx rule (HDO), a crucial step in cutting diesel pollution. Any delay only benefits special interests while it further burdens the public with increasing health problems and related medical bills. I strongly support Ecology's proposed rules on ACT and HDO to continue standing up to polluting special interests who seek to delay or halt progress. The Advanced Clean Truck rule is critical for Washington to meet its climate targets in law and for improving our health.
