I do not support the amendments which are being considered to Chapter 173-423 WAC. We are already paying almost the highest gas prices in the country, and we don't need them to go any higher. California's tax-spending spree is out-of-control, and a reason I moved from there to Washington 6 years ago. We should not follow in their footsteps by coupling to their radical emissions mandates. Instead, we should pursue homegrown policies which ease cost-of living challenges families here are facing. Please do NOT be like California, and do not support the proposed amendment to Chapter 173-423 WAC.

Thank you!
