

# Daniel Arnold

Dear Nikki Harris,

I would like to share with you my support of the updates to the Clean Truck Rules. State leadership on clean transportation has never been more important. I commend the Department of Ecology for making sure we have more clean trucks on our roads in Washington by upholding the Advanced Clean Truck (ACT) and Heavy-Duty Low NOx Omnibus (HDO) rules.

Washington can demonstrate its commitment to combating pollution and protecting vulnerable communities with regulations like ACT and HDO. There is an ongoing national effort targeted at repealing these rules and others like it by the trucking industry and manufacturers.

We can't let polluters take away our clean air future. Every delay in clean truck policies directly impacts public health, especially for low-income communities and communities of color, who are disproportionately exposed to harmful diesel emissions.

I strongly support Ecology's proposed rules on ACT and HDO, which are critical for improving public health and meeting our statutory greenhouse gas emission limits.

As someone who lives near to I-5, this affects me and my family directly.

Thank you.

Sincerely,  
Daniel Arnold  
Seattle, WA
