

## Jeanne Poirier

Thank you for allowing public comment on cleaner trucks. While fossil fuels and hydraulics have their place, whenever we can support cleaner air, better ways of transportation we need to. Washington can be a leader!

There is an ongoing national effort targeted at repealing this rule and others like it by the trucking industry and manufacturers. Delaying this rule by even two years would cause \$67.6-83.7 million in health costs. We can't let polluters take away our clean air future. Every delay in clean truck policies directly impacts public health, especially for low-income communities and communities of color, who are disproportionately exposed to harmful diesel emissions.

I strongly support Ecology's proposed rules on ACT and HDO to continue standing up to polluting special interests who seek to delay or halt progress. The Advanced Clean Truck rule is critical for Washington to meet its climate targets in law and for improving our health.

Thank you.
