

Kelly Craven

Please do not do this. We are not California. Governor Newsom just signed a law there, rolling back their unrealistic environmental impact surveys for homebuilding. California has gone too far and now so will Washington. You are hurting the taxpayers, the poor, the people who can afford to pay the least. All of this translates into higher prices for everyone. My husband and I are fixed income senior citizens. We have never gotten a raise since we retired, every time we get a little COLA, it is sucked up by higher taxes, higher prices, and higher insurance costs. You are harming the little people. WE ALREADY HAVE CLEAN AIR HERE. I look at the air quality every day and it is typically wonderful. You're not helping the citizens of Washington by interacting these onerous regulations that will only cause us to have higher prices at the grocery store. You're making it unaffordable for us to live in one of the most beautiful places in America. We are already paying 30% more than the rest of the country for our commodities. Please don't harm us anymore than we already are by your policies, which are not in everyone's best interest. Thank you for listening.
