

John McKinley

Why are we following the ways of California in yet another tax imposed on the hard working people of Washington? Our governor certainly doesn't listen to us as he's created the highest tax burden on Washingtonians than any other governor and now your department gets to tax us even more. And the kick in the gut is, you are not even elected by the people. This household and more and more people I talk to are all about "by the people, for the people". That's how our republic thrives and flourishes and why most of the country voted for a different leadership than what we previously had. Everyone can see how badly California has handled their state and yet your department and others continue to go down that bleak path. It would be wonderful if this didn't fall on deaf ears. Sincerely, John McKinley
