

Thomas Frenock

- 1) Climate change is no hoax.
- 2) Air pollution is a major factor in causing the increase in average temperatures.
- 3) Vehicle emissions are one of the leading causes of this air pollution. Continuing to invest in clean energy will help.

I strongly support Ecology's proposed rules on ACT and HDO to continue standing up to polluting special interests who seek to delay or halt progress. The Advanced Clean Truck rule is critical for Washington to meet its climate targets and for improving our health.
