

## Dana Fischer

This is Dana Fisher with Mitsubishi Electric US. Dana, D-A-N-A, Fischer, F-I-S-C-H-E-R. I am the Senior Director of Regulatory Strategy for my testimony today. It is really quite simple; I want to thank the Department of Ecology and staff for taking our comments during public hearings last fall into consideration. Specifically, related to timelines for VRF systems. The extension of 2 years for a sell-through period beyond the listed prohibition dates in Table 3, brings you into alignment with EPA and allows manufacturers, distributors, and contractors to best serve distributors across the great state of Washington. Thank you again for your efforts. We applaud your your willingness to align with the national standards.
