

Michael Siptroth

More money for rural transport, incl Sundays. Now people can get to our area to recreate, but w/o Sunday service, they can't get back, which means more people drive. Locals, incl seniors like me can't get around by public transport when no Sun service!

We need more money to help pave shoulders so bicycles can travel and pedestrians can walk safely, too!

Safe bike and pedestrian trails can make our communities more attractive and help lower income people
