

# CLIMATE AND HEALTH TASK FORCE

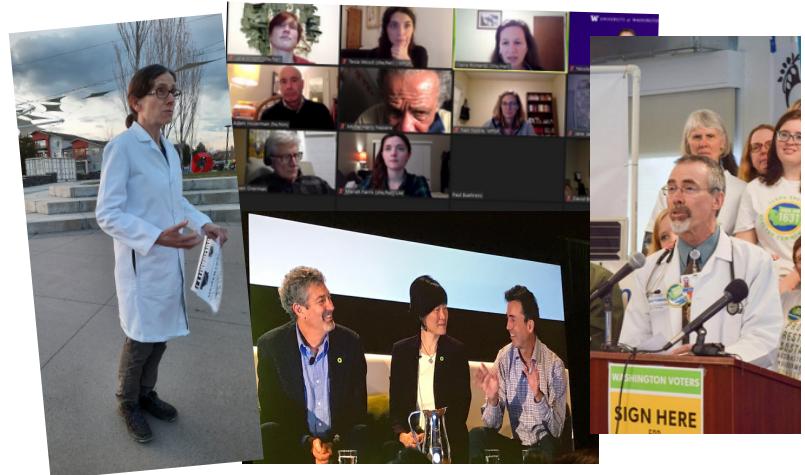

WASHINGTON PHYSICIANS  
FOR SOCIAL RESPONSIBILITY

## WHAT IS THE TASK FORCE?

WPSR's climate and health task force - comprised primarily of healthcare professionals - seeks to bring attention to climate change as a serious individual and public health issue. We enlist healthcare leaders to speak out on the health impacts of the climate crisis using their trusted medical voices to promote policies that protect our climate and our health.

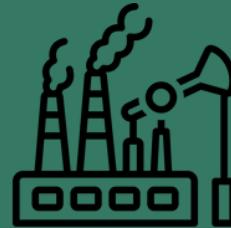

## TASK FORCE MEMBERS IN ACTION

## OUR CLIMATE & HEALTH PRIORITIES

ELECTRIFICATION

FOSSIL FUELS

TRANSPORTATION

## WHAT CAN I WORK ON?

WPSR Task Force members meet monthly to discuss challenges and opportunities, to learn, and to plan advocacy efforts on the policies that support our mission to foster a healthy climate.

Task Force members attend coalition meetings, write letters to the editor and op-eds, meet with elected officials, deliver trainings, and speak publicly in our effort to inform and influence decision-makers of the health impacts of climate policies.

Task force members engage as their skills, expertise, and time allow. There is a place for all regardless of prior knowledge or expertise.

## LEARN MORE & JOIN

WPSR membership is open to all, and you can sign up as a member and to receive action alert emails on our website at [www.wpsr.org](http://www.wpsr.org). To engage with WPSR's Climate & Health program, please email [wpsr@wpsr.org](mailto:wpsr@wpsr.org)!
