Matt Shepard-Koningsor

I have only started a cursory review of the linkage+ draft rules, but I noticed in the draft changes to WAC 173-446-610 (Enforcement, p.118), penalties are still deposited into the Climate Investment Account. Per HB 2251 (Sec. 12), beginning July 1, 2027, those penalties must be deposited into the CCA Operating Account. That appears to be the only use of "Climate Investment Account" in the draft rules. I just wanted to flag the 2027 change in case you want to address it during this rulemaking process.
