

Don Steinke

This is

Don Steinke in Clark County, Vancouver, Washington. And I urge you to move forward with your planning. Make it better as you see fit.

And I support the proposed fleet reporting requirement. I urge people to do to use Google to find out what they're doing in China. Everything that we're struggling with here and foot dragging on, they're doing in China 10 times what we're doing on electric buses, electric trucks, electric cars, and uh... I urge you to try to help catch up with what China's doing. And also in Chile, they have far more electric buses in Chile than we do. Thank you very much.
