Commissioners  
Delaware River Basin Commission  
P.O. Box 7360  
25 Cosey Road  
West Trenton, NJ 08628

RE: Public Comments on Proposed Draft Regulations Addressing Hydraulic Fracturing  
and Additional Clarifying Amendments

Dear Commissioners:

We are writing today to submit to the docket signatures of 2,191 of our members who join us in voicing strong support for a permanent ban on natural gas drilling in the Delaware River Basin in your proposed draft hydraulic fracturing regulations.

While these regulations are a step in the right direction, we are concerned about the provisions related to water use for hydraulic fracturing, as well as the provisions related to the management of produced water from hydraulic fracturing.

Letting drillers store, treat, and discharge fracked wastewater in the Basin could contaminate streams, groundwater, and the river, making it potentially even more dangerous than fracking itself. And allowing Delaware River water to be taken out of the Basin for use in fracking elsewhere could impact the quantity of water in the river. We can't afford this kind of destruction anywhere near the largest drinking water source in the Northeast. Millions of people across Delaware, New Jersey, New York, and Pennsylvania rely on this area for drinking water, running their businesses, farming, and swimming.

We would like to see stronger protections for our drinking water and urge you to enforce a full and complete ban on all fracking-related activities in the Delaware River Basin.

Thank you for your consideration.

Josh McNeil  
Executive Director  
Conservation Voters of PA
