

Maureen Perednia

I support a complete and permanent ban of fracking to safeguard the Delaware River's unique and invaluable watershed and thus the health of humans and other life dependent upon it. The proposed regulations that would permit water withdrawals and wastewater disposal related to fracking outside of the Basin should not be passed.

We need to be stewards of our environment else we will be victims of the damage we reap upon it. In the spirit of entrepreneurship and innovation, let's focus our country's resources on supporting clean, sustainable sources of energy.
