

Joe Guest

Please take action to protect the Delaware River from fracking, pipelines and fracking wastewater. Do NOT allow PennEast to destroy our communities. My family believes fracking and pipeline infrastructure should be illegal, especially when it involves a federal agency like FERC with NO elected officials making decisions to allow private corporations to seize people's property. Pipelines and fracking infrastructure benefit corporations, not local citizens. They help the gas companies to export this valuable resource to other countries. It's not helping us and we don't want it. Please BAN fracking and related fracking wastewater and pipeline infrastructure from the Delaware River Basin. The health and environmental risks are tremendous. Large numbers of Townships have passed resolutions to formally oppose PennEast. Do the right thing and protect the people. Thank you.
