

## James Loney

Having done a lot of research into the enormous scientifically-established dangers of shale natural gas extraction, I am categorically against any further fracking in either PA or NYS.

Further, it is imperative that the infrastructure supporting the environmentally-devastating 'fracking' industry be eliminated from PA and NYS. I write to express my profoundest anger at the attempt by industry AND governmental agencies trying to permit the import of fracking waste and export of clean water from the Delaware to use in the fracking industry elsewhere.

WE ARE SICK OF THIS BS OF 'FRACKING IS A GOOD THING.' SICK OF IT. NEITHER SCIENCE, PUBLIC OPINION, OR THE UNDERSIGNED IS IN FAVOR OF WHAT YOU ARE TRYING TO DO USING FRACKING OF SHALE TO EXTRACT FOSSIL FUEL. Politicians, agents of governmental bureacracies, and industry leaders will be held responsible for their actions. WE WILL NOT FORGET WHAT YOU ARE TRYING TO DO.....
