Your Comment here:

I reside in Upper Macungie Township.

I am a ^{retired} registered dietitian who has held

leadership roles in local, state and

national professional associations,

including Hunger & Environmental
Nutrition Dietetic Practice Group.

When calculating the hydration needs

R.D.S
We consider food/medication interactions
when conducting a nutrition assessment of a patient;
how do known and unknown toxins interact with medications
and food consumed by healthy people? ^{What are the deleterious medical issues?}

of patients, residents [&] clients, I and
my colleagues do not consider that ^{unknown} toxic
chemicals from the hydrofracking industry
may be in the water. This is because ~~of~~ the
DRBC has protected us from this; Please
continue this protection by not only
banning hydrofracking for natural gas
within the DRB but also banning any
support of the industry elsewhere ~~by~~
Ban withdrawal ^{of water} from the Delaware R. Basin
allowing ~~water~~ ^{withdrawal} to these areas
and ^{ban} the processing and storage of
waste ~~in the~~ DRB that was generated
elsewhere in the DRB.
