

## Phil Konigsberg

I was asked to comment on the Proposed Draft Regulations Addressing Hydraulic Fracturing and Additional Clarifying Amendments which I was surprised when I was requested to do so. I had the understanding that decisions were already made to secure that no fracking would ever take place in the State of New York and in areas that would impact the Delaware River region.

Well, allow me to once again to clearly say I DO NOT WANT TO SEE ANY FRACKING IN NEW YORK, NEW JERSEY, PENNSYLVANIA, DELAWARE OR ANYWHERE NEAR THE NORTHEAST REGION OF THE COUNTRY INCLUDING THE DELAWARE RIVER REGION. PERIOD.
