We support a COMPLETE FRACKING BAN AND STAND IN OPPOSITION TO THE DRAFT REGULATIONS THAT WOULD ALLOW TOXIC AND RADIOACTIVE WASTEWATER PRODUCED BY FRACKING TO BE STORED, PROCESSED AND DISCHARGED IN THE DELAWARE RIVER WATERSHED AND ALLOW WATER TO BE EXPORTED FROM THE BASIN O FUEL FRACKING ELSEWHERE. We must stop the destruction of our precious water resources from being polluted and poisoned by fracked gas. We need to ban fracking in the United States just as it has been banned in Ireland, the state of New York and many other locations. We are killing our planet by allowing the use of non-renewable sources of energy, when we have highly efficient sources of renewable sources.
