

Hadassah Mitchell

Hi my name is Hadassah I am 11 years old and I live in New York City. I think you should ban everything regarding fracking because of my concern as an 11 year old you should keep all water healthy and clean. We all need water, and we need clean water, and if water is not clean we will not be able to survive with contaminated water. So keep the water clean ban everything regarding fracking.

SOS!!!!: Hadassah
